AMMAR MOHAMMED

Cairo, Egypt | +20 101 230 2729 | ammarmoh989@gmail.com | linkedin.com/in/ammar-mohammed79

PROFILE

Detail-oriented engineering graduate with hands-on software development experience and a growing focus on software quality assurance. Built and validated web applications in Angular and React, developing a strong eye for edge cases, unexpected behaviour, and clear bug communication. Currently expanding QA skills – including test case design, Agile workflows, and API testing – through NextEra Academy. Eager to contribute to a quality-driven team.

SKILLS

Testing & QA	Manual testing, functional & regression testing, test case design, bug reporting, exploratory testing
Agile & Process	Scrum, Kanban, sprint-based delivery, Agile collaboration (NextEra Academy)
APIs & Data	REST API interaction, basic SQL queries, JSON data inspection
Dev & Tooling	Git, GitHub, Docker, browser DevTools, Visual Studio. JavaScript, TypeScript, Angular 16+, React.js

WORK EXPERIENCE

Frontend Intern – *TTECH* Jun 2025 – Aug 2025

- Built and manually validated Angular UI components, verifying data binding and routing across multiple states and edge cases.
- Identified and reported UI inconsistencies to senior developers using structured, reproducible bug descriptions.

Frontend Intern – *Inspire for Solutions Development* Sep 2024 – Nov 2024

- Validated interactive React UI states and conditional rendering logic across user scenarios before delivery.
- Collaborated via Git branching and code-review workflows – directly applicable to Agile team environments.

EDUCATION

B.Eng. Sustainable Design – Mechatronics Aug 2018 – Jun 2023

University of Prince Edward Island, Cairo Campus

- 2023 Design Expo winning project team – applied structured validation to engineering system requirements.

TRAINING & CERTIFICATIONS

Diploma Program – NextEra Academy Oct 2025 – Present

- Agile collaboration, sprint delivery, test-oriented thinking, Docker-based dev workflows.

Core Banking Systems Course Jan – Mar 2025

- Systematics core banking concepts – context for testing enterprise business applications.

ADDITIONAL INFORMATION

Languages	Arabic (Native), English (Professional), French (Beginner)
Military Status	Exempt
Awards	2023 Design Expo winner | 3rd place Cairo long jump, 2018
